

eHealth Governance Initiative

A European Member States Project

Workshop on eID for eHealth
Brussels, 11.+12. February, 2013

Dr. Clemens-Martin Auer
Director General, Ministry of Health Austria

eHealth Network Art. 14

Political goals

The overall objective of the initiative is...

,... to contribute actively to the shaping of the eHealth political agenda at EU level, with a specific focus on interoperability. Member States aim at achieving Interoperability and increasing the quality and efficiency of care by strengthening their cooperation at High Political Level to get support in how to deploy eHealth services also across borders.'

The Art. 14 Networks mission:

,The Network will bring together the national authorities responsible for eHealth on a voluntary basis to work on common orientations for eHealth. The eHealth Network is expected to translate the results of numerous research projects and pilot projects into real-life accessible services for European citizens.'

Multiannual Work Programme 2012 – 2014 for the eHealth Network
